INSPIRATION

# BURLINGTON

NEW COLLECTION

## BURLINGTON

Deep in the Cumbrian mountains of the UK, pure Lakeland water, volcanic ash, weathering and mineral processes slowly form Burlington. For centuries, this iconic stone, which has inspired our eponymous collection, has given life to beautiful interiors, naturally carved work and majestic spaces; spaces where wonderful things happen, where the moment stops, where chemical processes slowly form, in our brain, a collection of beautiful memories. Burlington.

En las profundidades de las montañas de Cumbria, en Reino Unido, la pureza del agua de Lakeland, la ceniza volcánica, la intemperie y los procesos minerales forman lentamente Burlington. Durante siglos, esta icónica piedra, que ha inspirado nuestra colección con el mismo nombre, ha dado vida a interiores hermosos, a trabajos tallados de forma natural y a majestuosos espacios; espacios donde suceden cosas maravillosas, donde se detiene el momento, donde los procesos químicos forman lentamente, en nuestro cerebro, una colección de hermosos recuerdos. Burlington.
